Ulrich School - Changes Starting September 2025

Dear Parents and Guardians,

We hope you and your families are doing well. Today, we want to inform you about an important change that will take effect starting September 2025.

Changes Bring Opportunities

We understand that changes can sometimes feel unfamiliar. However, they also bring new opportunities to improve the school for your children.

What will change?

- Starting from the 2025/2026 school year, the classes of the diagnostic support grades (1, 1Z, and 2) will be taught in our Göggingen building.
- The classes of grades 3 and 4 will remain in the main building on Maximilian Street.

Special Exceptions for 2025/2026:

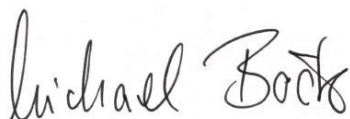

- Mr. Rahe's class (3rd grade) and Ms. Herz's transitional class 1Z will remain at their current location for one more year.
- Starting from the 2026/2027 school year, all diagnostic support classes will be in Göggingen.

Important Information for You:

- Classes of grades 5 to 9 and Ms. Flögel's current 3rd-grade class will remain at their location on Maximilian Street.
- Children from the diagnostic support grades will continue to have bus transportation provided by the company STORZ. If you need help with the transportation application, please contact your child's class teacher.

We are confident that this change will improve the school for all children. If you have any questions, feel free to reach out to us at any time.

Kind regards,

Michael Böck
Schulleiter
